

lg::visualization::
save_multiple_vec

lg::visualization::
save_vec

lg::visualization::
findminsquare

```
graph LR; A[lg::visualization::save_multiple_vec] --> C[lg::visualization::findminsquare]; B[lg::visualization::save_vec] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'lg::visualization::save_multiple_vec' and 'lg::visualization::save_vec', are shown on the left. Arrows from both of these functions point to a single target function, 'lg::visualization::findminsquare', which is located on the right. The target function box is shaded gray, while the source function boxes are white with black borders.
